Dear Sirs -

~~at~~
I am writing to report
the sighting of an unidentified
flying object last night at 10²⁵
P.M. (June 19th). ~~_____~~

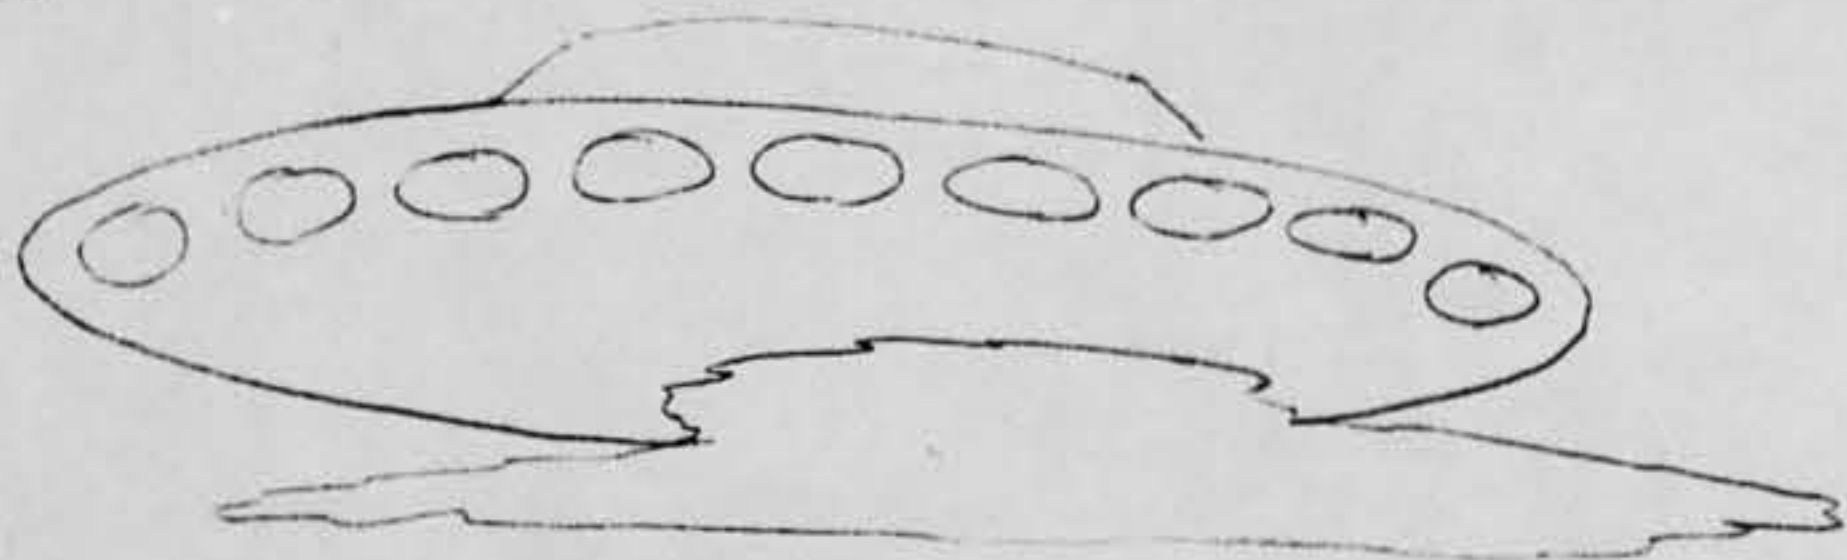

was the first to see the object
as she looked out the bed-
room window to the north.
It was moving eastward, had
a pale yellow color, was
glowing and flashing on and
off and appeared to be about
twenty feet in length with
a tree-top span as measuring
gauge. She called for Sandi,
our daughter, who also saw it
describing it similarly. Sandi
then shouted for me to look.

I saw the object moving east,
glowing on and off and it then
disappeared behind a building.

Duration of flight was per-
haps two minutes and it
was a beautiful sight.

Send 164 Thank You ~~_____~~

The object had this appearance. The circles on the shape were flashing in sequence say Mrs. Petrzak and Sandi. To me the entire object glowed on and off.

Sandi said there was a dome on top. The shape below the ellipse could have been a cloud since the underside seemed to be broken as shown.
